# LE SOUFFLE DU VENT

@Maitresse-Freinette

Il fait planer son  
odeur.

Il fait danser les feuilles  
des arbres aux papillons.

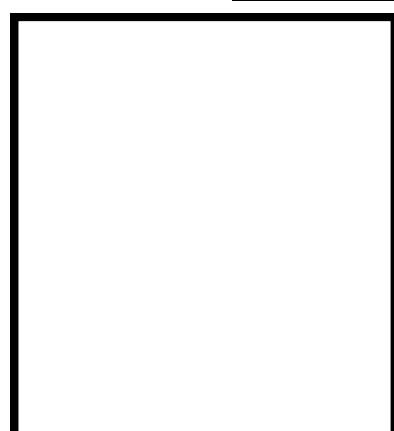

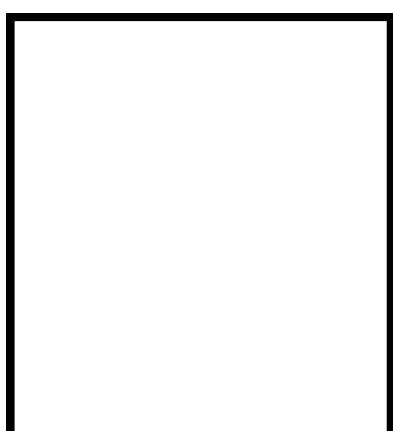

Il anime les  
éoliennes

Il gonfle les voiles  
des navires.

Il fouette brutalement la  
surface des océans.

Il façonne des  
vagues de sable.

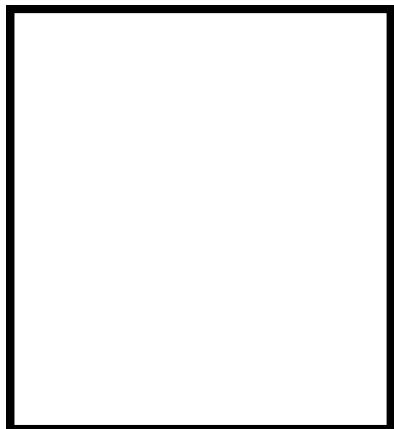

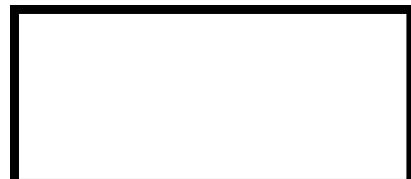

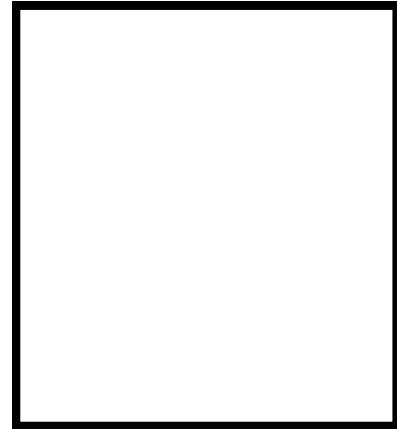

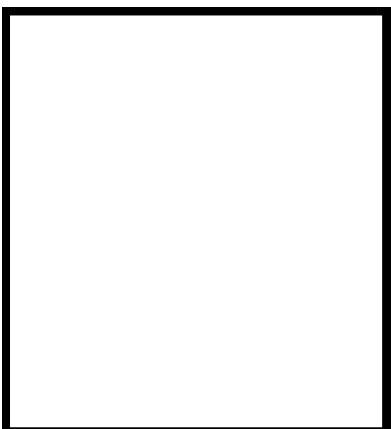

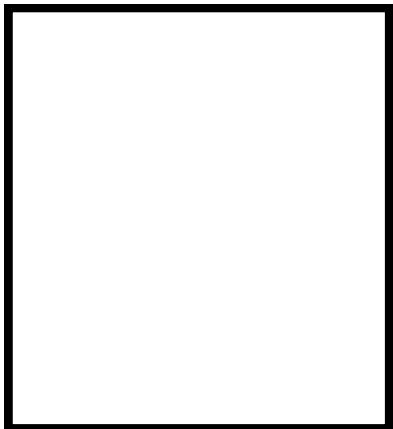

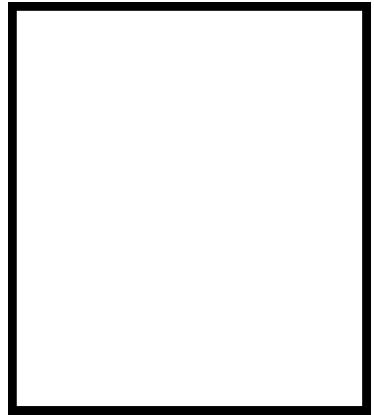

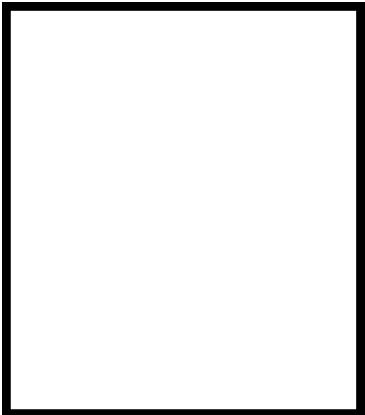

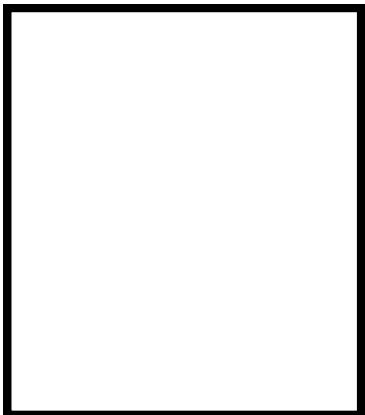

Il érode et lisse la  
roche.

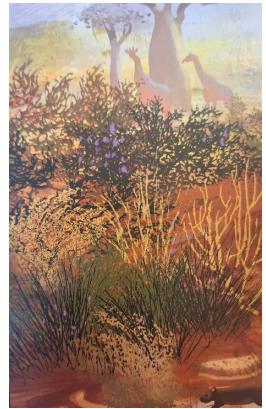

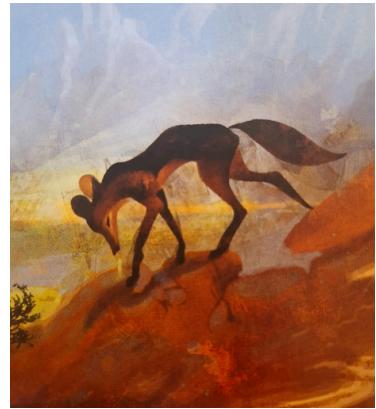

Il sculpte certaines grottes de  
pierres béante.
